SUMMARY OF CABINETS

Cabinet boxes are constructed of 3/4" (9-ply) pre-finished maple plywood where cabinetry is hidden by a solid door and " (9-ply) unfinished plywood where cabinet interiors will be visible through glass door panels. Face frames are constructed of poplar. Cabinets will have Blumotion concealed hinges and include Blumotion soft close dampers installed at the top of each cabinet. Two shelves will be included with the upper cabinet, and one shelf will be included with the lower cabinet. All shelves are adjustable using a movable pin system.

Cabinet doors 3/4", hardwood; hung with soft close, anti-slam hinges.

Drawer boxes are constructed of solid _____ installed with Blumotion soft close invisible, anti-slam slides. All drawer bottoms are constructed with 1/4" plywood and have a weight static rating of 75 lbs with the exception of the 3 oversized drawers which will have 1/2" plywood bottoms and a static weight rating of 110 lbs.
